

22. NMRG Meeting

Jürgen Schönwälder

Jacobs University Bremen
Bremen, Germany

68. IETF, Prague, March 2007

Network Management Research Group (NMRG)

Charter (excerpt)

The Network Management Research Group (NMRG) provides a forum for researchers to explore new technologies for the management of the Internet. In particular, the NMRG will work on solutions for problems that are not yet considered well understood enough for engineering work within the IETF.

Background

- Chair: Juergen Schoenwaelder
- Chartered in 1999 and running since then
- Holding the 22nd meeting in Prague today
- <http://www.ibr.cs.tu-bs.de/projects/nmrg/>

Agenda (original version)

- 09:00 Agenda bashing and administrivia
Jürgen Schönwälder (Jacobs University Bremen)
- 09:10 Report from the NMRG meeting in Utrecht
Aiko Pras (University of Twente)
- 09:30 SNMP trace collection/analysis update
Jürgen Schönwälder (Jacobs University Bremen)
- 10:00 Role-based access control for NETCONF
N.N. (INRIA)
- 10:30 Distributed monitoring algorithms
Alberto Gonzalez Prieto (KTH)
- 11:00 Discussion
Everybody
- 11:20 Wrapup
Juergen Schoenwaelder (Jacobs University Bremen)

Agenda (updated version)

- 09:00 Agenda bashing and administrivia
Jürgen Schönwälder (Jacobs University Bremen)
- 09:10 Report from the NMRG meeting in Utrecht
Aiko Pras (University of Twente)
- 09:30 Last call review draft-irtf-snmpp-measure-01.txt
Jürgen Schönwälder (Jacobs University Bremen)
- 10:00 SNMP trace analysis update
Jürgen Schönwälder (Jacobs University Bremen)
- 10:30 Distributed monitoring algorithms
Alberto Gonzalez Prieto (KTH)
- 11:00 Discussion
Everybody
- 11:20 Wrapup
Juergen Schoenwaelder (Jacobs University Bremen)
